

SAFE *all the* WAY

STOP VIOLENCE AND HARASSMENT ON THE WAY TO WORK

Violence and harassment in the world of work, including **on the way to and from work** is a persisting phenomenon that particularly affects women. Many employers don't know that they have a responsibility to make sure staff get home safely.

The **ILO Convention No. 190** eliminating violence and harassment in the world of work is clear: Commuting to and from work is part of the world of work. **Zero tolerance for violence and harassment!**

**Sign our petition
in support of ILO
Convention No. 190**

**All women workers must be
SAFE ALL THE WAY!**

ETUC demands that...

- All EU Member states must ratify ILO Convention No. 190!
- Employers must negotiate with trade unions to make sure travel from and to work is free from violence and harassment. This is part of their health and safety responsibilities!
- European institutions must include practical solutions to make workplaces safe from violence and harassment in a new Directive!
